

# ResponseCard® RF

RF (Radio Frequency) is our most popular ResponseCard. It's simple layout makes for effortless use in most scenarios from small groups to huge multi-site voting adventures.

You can start off with as many or as few handsets as you like, and if you ever need more for an occasion, you can rent extra TurningPoint handsets from us.

## Specifications

### Enclosure

- Lightweight, compact, grey "credit card" format.
- Dimensions: L 8.4cm x W 5.3cm x D 0.76cm.
- Weight: 28g (with batteries).
- Durable, rugged case ensures maximum longevity under extreme conditions.

### User Input

- 12 key (1(A) - 10(J), Ch, ?).
- Answer Key - answer transmitted automatically.

### Display

Participants receive answer confirmation on their ResponseCard through two-way communication. Successful transmissions are acknowledged on the participant's keypad via a three second long visual green light signal.

### Power & Power Management

- Powered by two coin cell CR2032 (3.0V) Lithium Batteries.
- Always in deep sleep mode - only uses power when a button is pressed.
- Average battery life is 12 months.

### RF Technology

- Available Channels: Up to 82 sessions can be running at one time in close proximity without interference.
- Fully FCC, CE and Industry Canada certified.
- Will not interfere with other technologies.
- The most reliable and scalable offering available.
